We're so proud of our **Soap**, we've given it a brochure all of its own! Ask for your copy today.

~~~~~

Is there a special occasion in your future? We'd be happy to discuss your needs for a gift pack or basket to suit the occasion and your budget.

~~~~~

Our **bath and body products** are made with food grade oils, premium butters and Essential Oils. We use preservative in our scrubs, lotions and creams because we want our customers to be confident that our products are safe when purchased and will have a sufficient shelf life so that they may be enjoyed fully.

We are aware that many people have allergies and sensitivities to scent and other ingredients and we have a number of "**no added scent**" products to choose from. We feel that no one should be excluded from indulging themselves for any reason!

**Custom orders** of bath & body products are welcome. I would be delighted to discuss your specific needs.

*All bath & body products have been registered with Health Canada. All products containing preservative systems have been tested by an independent lab before being offered for sale.*
