

**Millstream Cottage Crafts** was born from a love for crafting high quality goods, and memories of summers spent at the cottage on the Millstream River in New Brunswick. That cottage wasn't fancy but my siblings and I spent untold hours happily creating fun from bits of wood, fabric and our imaginations.

Over the years I have crafted in many different ways using many different methods, but there is something about making candles that gives extra satisfaction with the finished product. Strike a match to the wick and within seconds a warm, cheerful light appears, brightening any space with a golden glow and a wonderful scent. Besides the purely aesthetic appeal, candles, when properly and safely burned, can warm us, heat our food and provide a comforting light when the power goes out. And, of course, nothing says "Romance" better than candlelight.

Soapmaking has rewards all its own. I've been told I'm a creative person, and making soap allows me to express that creativity and bring a unique product to people with ingredients I've chosen for their beneficial properties, their pleasing scent and their luxurious feel on the skin. For those reasons it is very gratifying to hold that bar of hand crafted soap in my hand.

Soapmaking led naturally into other bath and body products such as scrubs, lotions, balms and salts. They allow us to pamper and indulge ourselves when we can.

Today's world is a busy one. My aim is to bring top quality, hand-crafted candles, soaps and bath and body products to you, the discerning buyer, in the easiest, most convenient way possible. Enjoy!

~ Ann McGee
